Courtland

Class and Distinction is the only way to describe the new **Courtland** Stone from Oaks Concrete Products. Using the latest in concrete technology Courtland achieves the look of flagstone, but at a fraction of the cost helping you save money and time. Possessing the strength and durability of concrete pavers and with its uniform thickness Courtland is suitable for driveways, patios, pool decks and walkways. Offered in three natural tri-color blends Courtland gets the unique look you desire.

*estimated

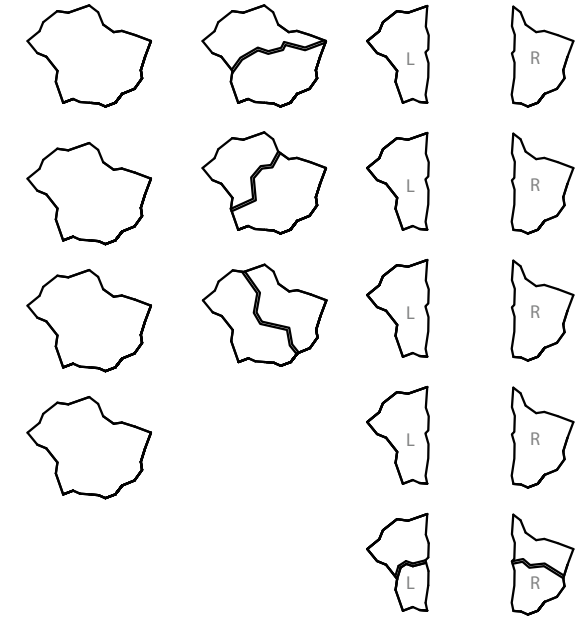

Arrangement of Stones as packaged

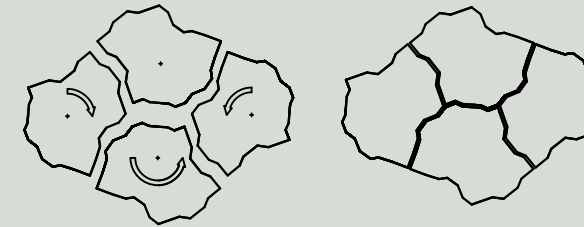

Half Stones can be used in the pattern by creating "Full-Stones" using the Left and Right sides

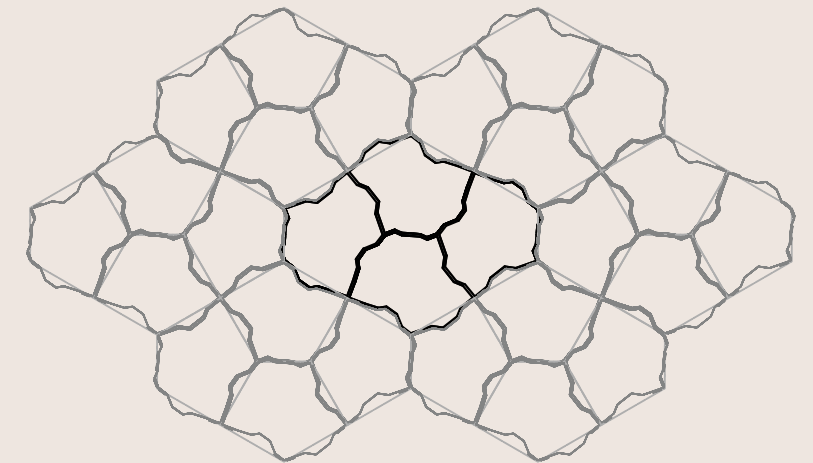

Each layer packaged in a bundle of Courtland Stone includes these shapes.

Basic laying pattern is created by using 4 stones rotated 90° to each other.

4 Stone Pattern repeats to create larger layout

Available in 3 tri-blend colors

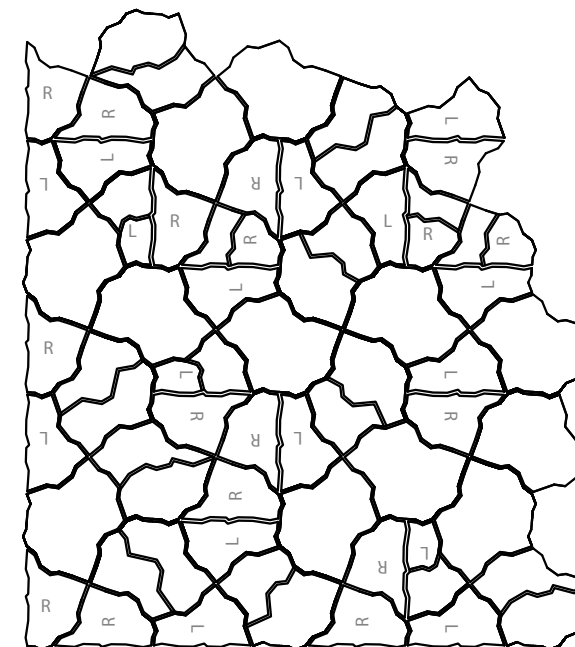

Silversand

Caledon Crimson

Quarry Tan

Installing the new **Courtland** Stone is simple and efficient, saving you the cost of labour compared to random flagstone installation. The single piece (perimeter stone) design allows for added ease of installation, helping to ensure a more level finished project. Each piece has the durability of concrete, meaning a longer lasting driveway, walkway or patio.
